**Note from Taras Shevchenko National University of Kyiv**

On February 24, 2022, an act of aggression of the Russian Federation against our homeland and its people took place. The worst-case scenarios came true.

Under the pretext of Russia's self-defense and protection of the Ukrainian Donbass republics, the Putin regime insidiously committed a criminal act of aggression. All masks are torn. The enemy showed his true nature and broke into our home.

The occupiers seized the Chernobyl nuclear power plant, villages and are trying to capture key military institutions.

We are united in strongly condemning the aggressive actions of the Russian Federation.

We are united in our urge to resist the enemy on all fronts of this long-running war - no longer a hybrid, but a full-scale open war.

We are united in our determination to persevere and preserve all the heritage of the Taras Shevchenko National University community.

The Armed Forces of Ukraine are actively engaged in defense activities, protecting every citizen of Ukraine.

**Dear partners, we ask you to convey our appeals to the governments of your countries to consolidate efforts in the foreign policy arena and strengthen the resistance to Russian aggression.**

*Respectfully yours*

Rector

Volodymyr BUGROV
